PROFILE SUMMARY

Frontend Developer around 4 years of experience in designing and developing responsive web applications using **Angular, React, and Next.js**. Skilled in building **scalable user interfaces**, optimizing **application performance**, and implementing **state management** using **NgRx and RxJS**. Experienced in integrating **RESTful APIs** and **GraphQL**, working closely with backend teams and leveraging **AWS services** like **S3** and **Cognito** for frontend integration. Proven track record of delivering projects using **Agile** and **Waterfall** methodologies.

SKILLS

Programming & Web Development

HTML5, CSS3, SCSS, Python, SQL, JavaScript, Typescript (ES6+)

Cloud & DevOps

AWS (S3, KMS)

Professional/Soft Skills:

Task Prioritization, SDLC, Agile/Scrum Methodology, Effective Communication, Cross-functional Collaboration

Libraries/Frameworks

Angular, React.Js, NextJS, Bootstrap, RxJS, NgRx, Material UI, Redux, Apollo Client, Jasmine, Karma and Jest

Tools

Visual Studio Code, Postman, Git, Jira, Bitbucket, Figma, GitLab, GitHub

WORK EXPERIENCE

Associate Appdev Engineer

10/2022 – present

Blumetra Solutions Pvt Ltd.

- Developed dynamic and responsive web applications using React and Angular, focusing on performance, scalability, and cross-browser compatibility.
- Implemented and optimized GraphQL queries and mutations to improve data retrieval efficiency and reduce application latency.
- Created and maintained reusable React components, leveraging component-based architecture to streamline development and improve code reusability.
- Built modular, maintainable Angular code and developed user interfaces aligned with modern web development standards such as HTML5, CSS3, and TypeScript.
- Collaborated with backend teams to integrate RESTful APIs and GraphQL endpoints, ensuring reliable data flow between front-end and back-end systems.
- Enhanced application performance using lazy loading, code splitting, and Redux for efficient state management and improved user experience.
- Conducted unit testing using Jasmine and Karma, reinforcing code quality and software stability.
- Participated in Agile development workflows, including sprint planning, code reviews, and daily stand-ups, contributing to continuous delivery and team collaboration.

Full Stack Developer Intern

10/2021 – 09/2022

Cylus Creators Pvt Ltd

- Developed and maintained full-stack features using Angular, React, and Python (FastAPI).
- Built and consumed RESTful APIs for data-driven web applications.
- Worked with PostgreSQL and integrated backend services with frontend components.
- Utilized Tableau to create dashboards and visualize data insights for internal reporting.
- Participated in UI development using HTML, CSS, and JavaScript, ensuring responsive design.
- Collaborated with the team in an Agile environment and used Git for version control.

AWARDS

Best Employee of the Quarter Award

Blumetra Solutions Pvt Ltd.

Won twice for outstanding performance, innovation, and going the extra mile to deliver impact at Blumetra Solutions.

CERTIFICATION

- AWS Certified Cloud Practitioner

PROJECTS

Tailored Brands - TuxLeads Project

An enterprise lead management application enabling tailored configurations for various business needs. Developed tabular UI screens and integrated the frontend with backend services for real-time data updates.

Tech Stack: ReactJS, Next.js, TypeScript, Redux, Responsive Web Design, Jest, REST API

BDOP-Blumetra Data Observability Platform

This product is developed to help customers to run their data pipelines efficiently by validating the source data in accordance with the specification and provide transformations feature.

Tech Stack: React JS, NextJS, TypeScript, Redux, Responsive Web Design, Jest, GraphQL

Design System

This Product is to Develop Reusable custom components like Buttons, Checkbox etc., are developed as Angular library. It can be reusable in other projects like a package by installing it.

Tech Stack: Angular, Lit HTML, Responsive Web Design

Migration Factory

This product helps MDM customers to perform assessment of their implementation and view recommendations on their migration plans to Informatica.

Tech Stack: Angular, TypeScript, NgRx, Jasmine, Karma

Pettm – All About Pets | Intern

Worked on an e-commerce platform focused on pet care, supporting both analytics and app functionality to enhance business performance and customer engagement.

Tech Stack: JavaScript, HTML, CSS, React Js, Python, SQL, Tableau

EDUCATION

Rajiv Gandhi University of Knowledge and Technology(IIT - Basar)

2018 – 2022

Bachelor of Technology in Electronics & Communication Engineering.
